COLLECTION

# WELCOME

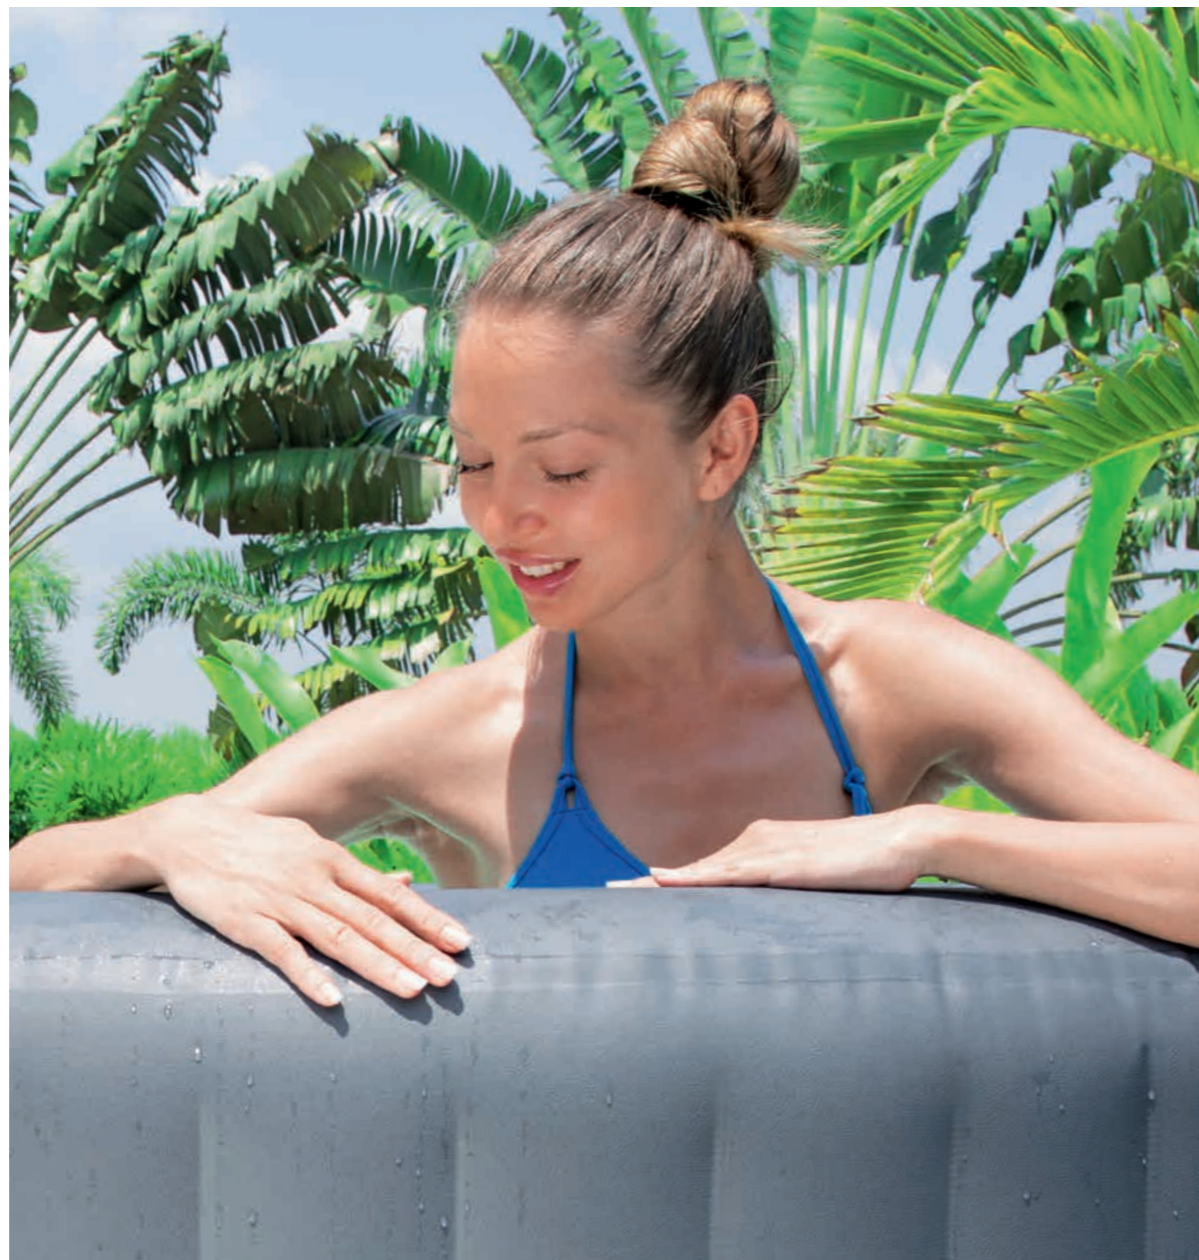

---

Bestway's Lay-Z-Spa™ is the world's first premium inflatable spa. Almost a decade of advanced engineering innovations have built total market dominance and a name consumers have grown to trust. The Lay-Z-Spa offers an affordable spa experience that's convenient to use, easy to set up and offers total relaxation.

Another reason consumers love Lay-Z-Spa is because it's backed by Bestway's comprehensive customer support services. These include online support, video tutorials detailing step-by-step how to set up and maintain your spa, plus localized call centers to answer any questions. For this reason, customers enjoy peace of mind and can spend more time relaxing in their Lay-Z-Spa.

Your customers deserve the best portable spa – they deserve Lay-Z-Spa by Bestway.

# TRITECH™ 3-PLY

---

Durable, yet comfortable

---

TriTech™ is a 3-ply reinforced material with a polyester mesh core that's encased in two layers of laminated PVC – offering superior strength and durability.

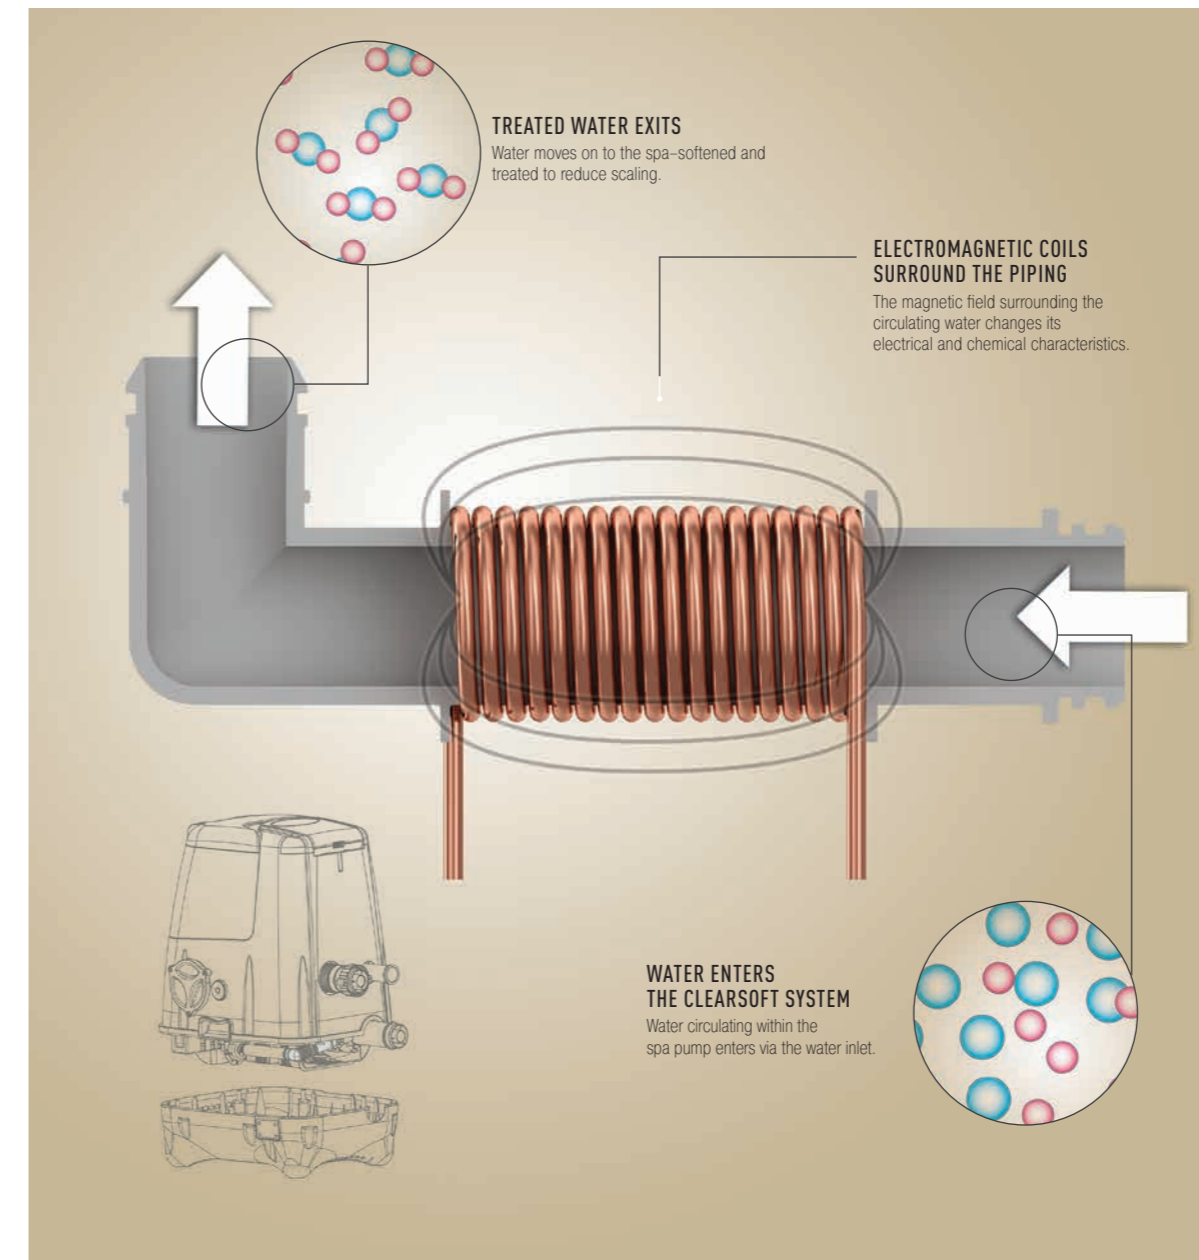

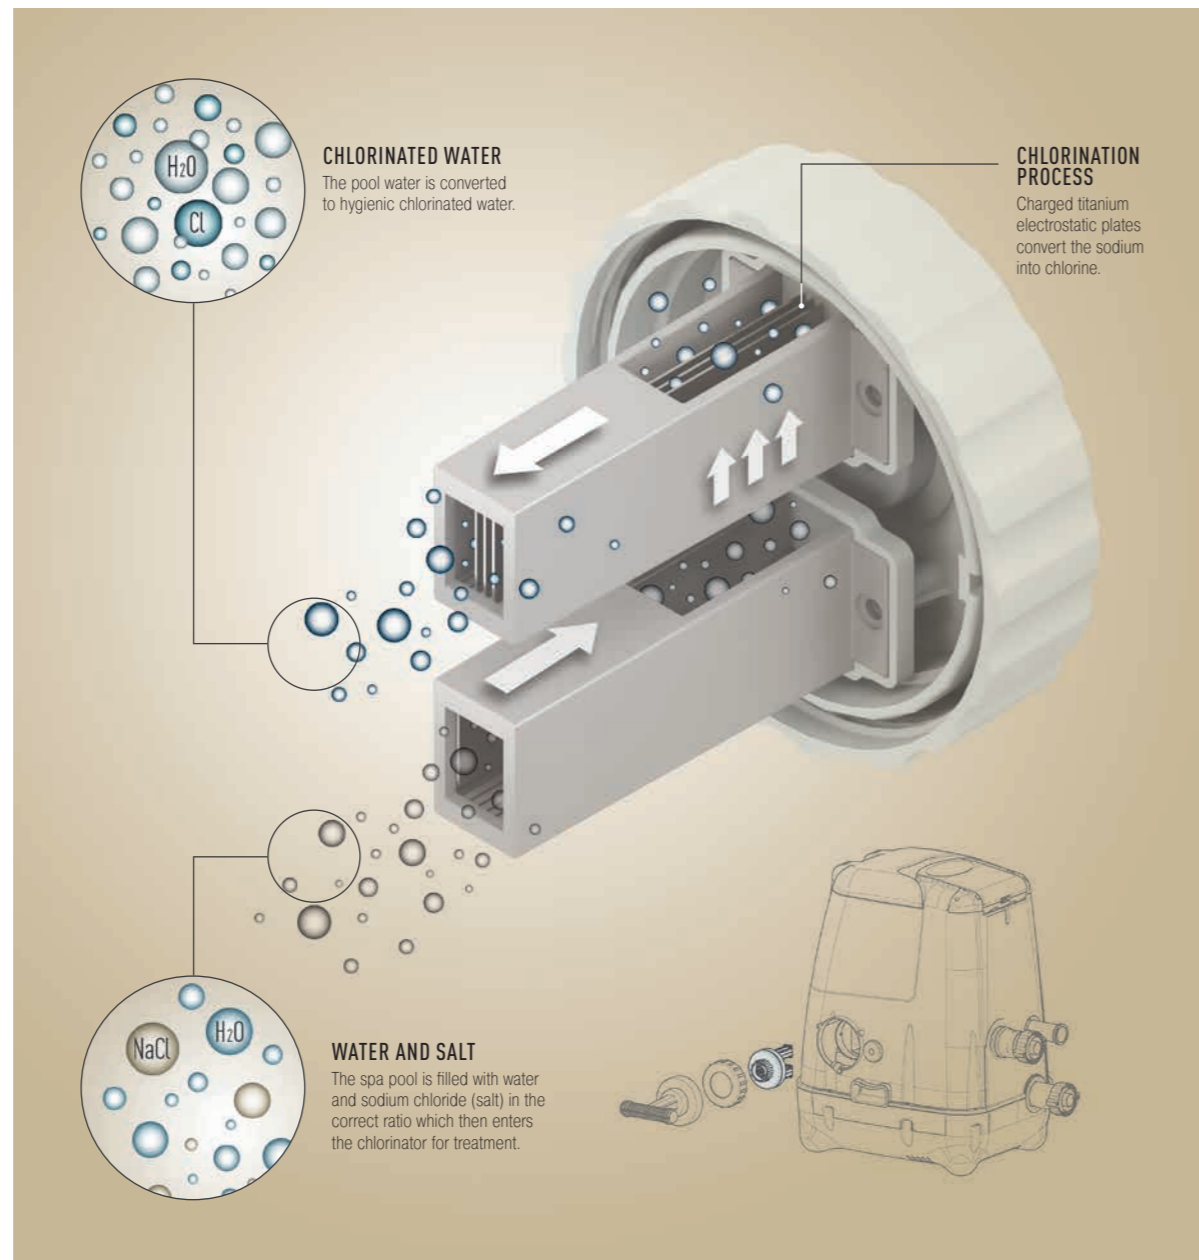

# ClearSoft™ Water Treatment System

Just add salt & water –  
let your HydroJet Spa do the rest!

A safe, trouble-free way to chlorinate  
your spa pool, the Bestway ClearSoft  
in-built electrostatic system converts  
salt and pool water into hygienic,  
chlorinated water.

Why mess around with complicated pool  
chemicals when the ClearSoft Water  
Treatment System can do the job for  
you? Relatively low-maintenance,  
it comes as standard equipment with  
all Bestway HydroJet spas.

# ClearSoft™ Water Softening System

Electromagnetic Water Softening

Reduce the adverse effects of “hard”  
water (commonly spa staining and skin  
irritation) with our in-built ClearSoft Water  
Softening System.

Just activate the ClearSoft system using  
the spa’s control panel and powerful  
electromagnetic coils surrounding the  
spa’s water work to condition the water  
passing through the system.

Plus, it’s not just “low-maintenance”, it’s  
virtually “NO-maintenance” - with no  
additional moving parts!

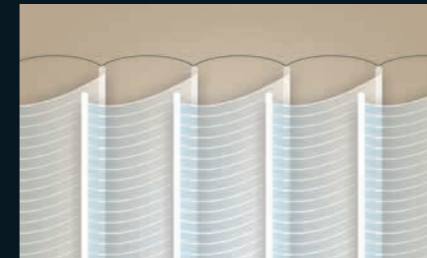

## STURDY I-BEAM CONSTRUCTION

Delivering strength and comfort

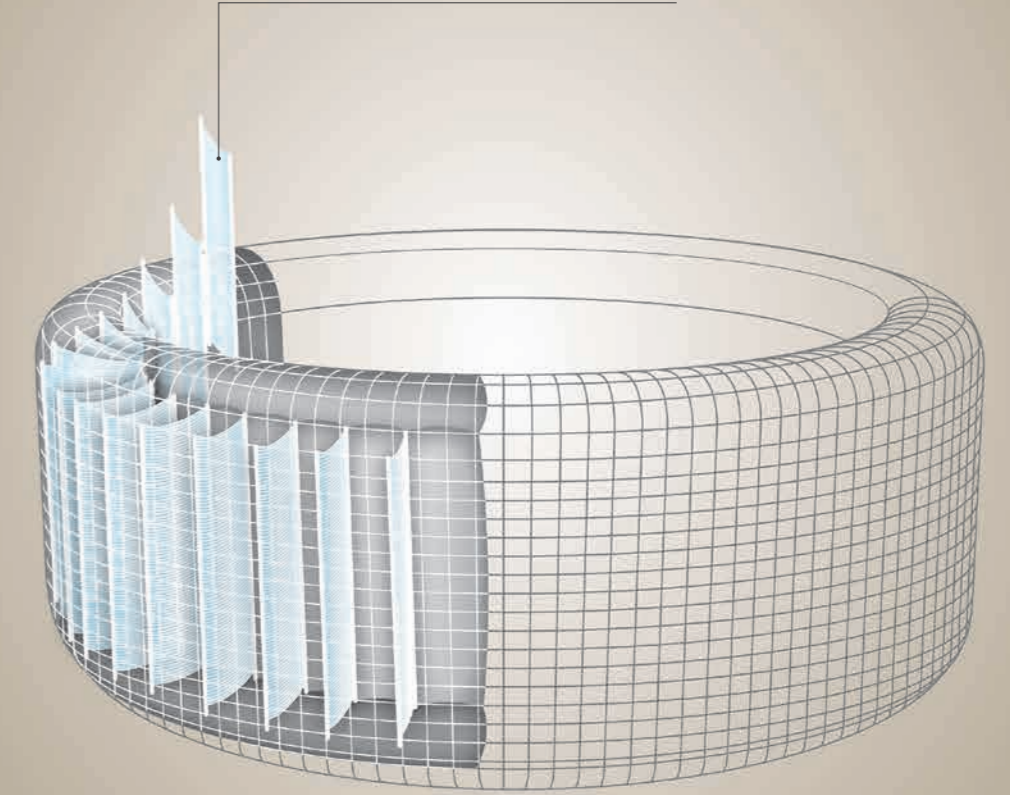

Lay-Z-Spa's I-Beam construction is designed to offer superior structural stability while maintaining a comfortable surface for a luxurious, refreshing spa experience.

The spa retains its shape no matter how many times it's inflated/deflated yet always provides a comfortable, cushioned spa environment.

### I-BEAM CONSTRUCTION

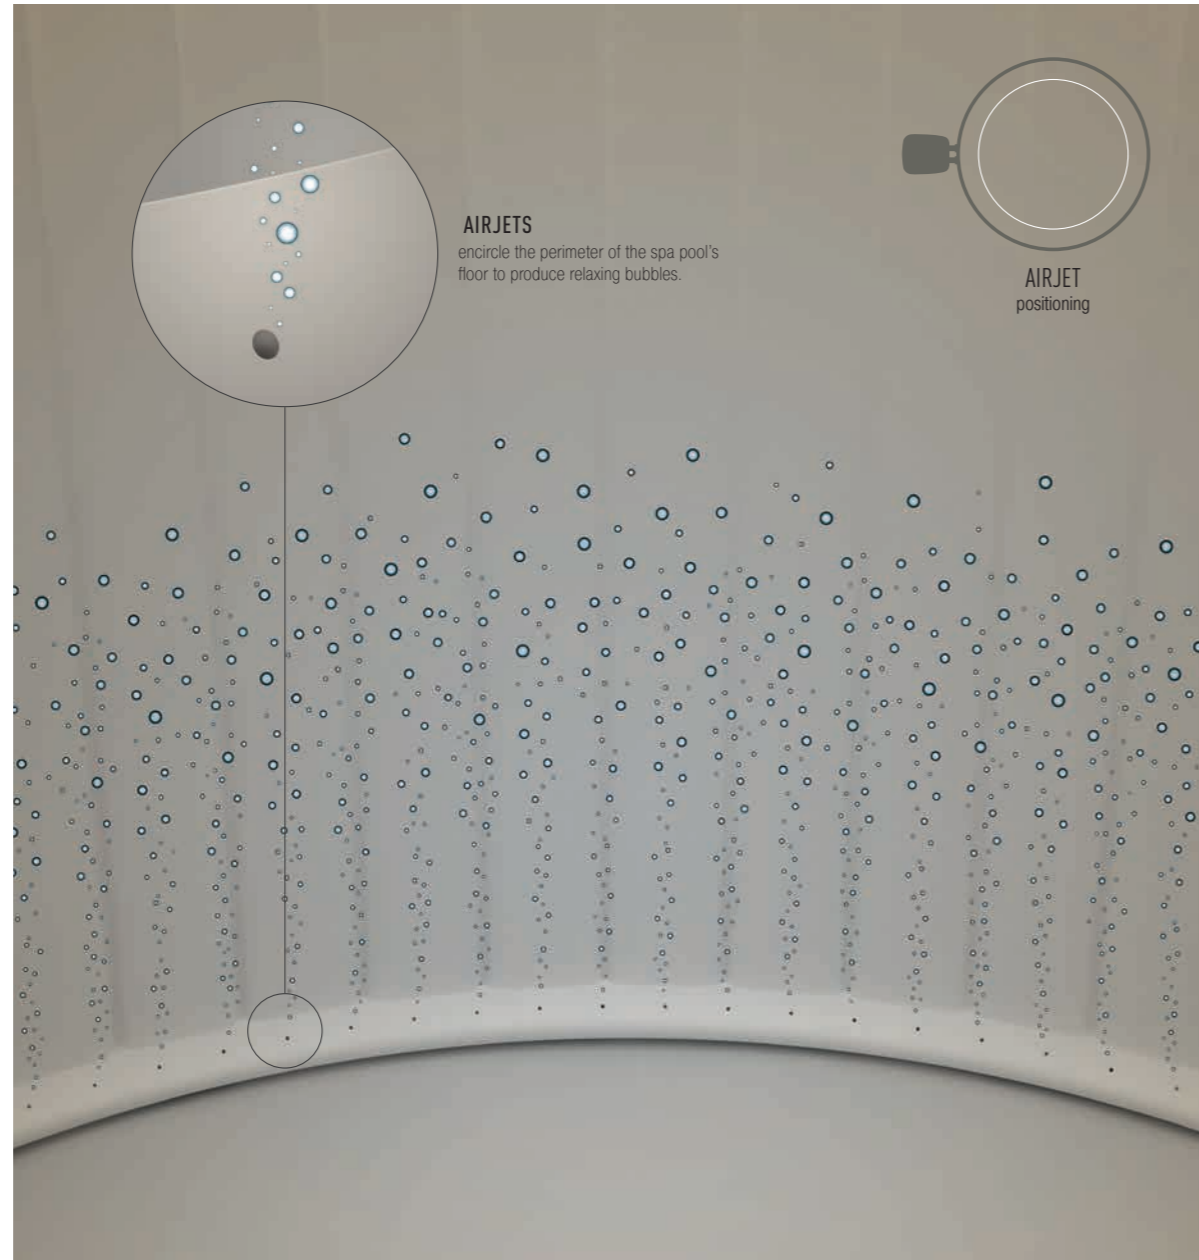

The 48 vertical I-beams radiate from the spa's inner wall to its outer wall – making the spa strong, yet resilient.

# Lay-Z-Spa AirJet™

Float away on a cloud of bubbles with an AirJet massage!

Soothing to the limbs and relaxing to the spirit, just press the Lay-Z-Massage button on the control panel and the Lay-Z-Spa's AirJets will surround you with effervescent enjoyment.
