

A group of six people (three women and three men) are jumping joyfully on a sandy beach. They are holding large, colorful inflatable mats in various colors: pink, blue, yellow, silver, green, and purple. The background shows a blue sky with scattered white clouds and some beach vegetation. The overall mood is happy and summery.

SUSTAINABILITY

We're serious about sustainability! From exploring alternative power sources to ensuring as few of our products as possible end up in landfill, at Bestway, we take our environmental responsibilities very seriously indeed. Here are just a few examples: Over 1 million square feet of our Jiangsu manufacturing facilities' rooftops have been covered with solar photovoltaic systems. In this way, over 5 megawatts of carbon-neutral electricity have been generated. We've also made a dramatic reduction in our carbon footprint and are well on the way to our target of a 25% reduction in emissions by 2020. In addition, since 2015, only phthalate-free PVC is used in the production of our above ground swimming pools, airbeds, mattresses and toys.
